Office Action Summary

Art Unit 1712

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

selected I. Claims 1-15, drawn to suspension of PBBMA and process for its preparation, classified in Class 516, subclass 77. *or dependent*

II. Claims 16 and 17, drawn to process for fire retardation of carpets or textile materials, classified in Class 427, subclass 388.4.

III. Claims 18, 20 and 21, drawn to process for producing ultimate products by copolymerization, classified in Class 524, subclass 832.

IV. Claim 19, drawn to process for producing ultimate product by graft polymerization, classified in Class 525, subclass 54.3.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and all of inventions II, III and IV are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case

Art Unit 1712

the product of Group I can be used in a materially different process, such as an analytical or diagnostic process.

The process of Group II differs from those of Groups III and IV in that it results in a non-particulate coated product; and Groups III and IV have different modes of operation, i.e. copolymerization vs. graft polymerization.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group/Groups II, III and IV is not required for Group I, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Arnold H. Krumholz on June 10, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lovering whose telephone number is (703) 308-0443. The examiner can normally be reached on Mon.-Fri. from 7:30 A.M. to 4:00 P.M.
